Position title: Assistant Professor position in Information Systems.

Start date: August, 2018

Salary: Commensurate with qualifications and experience. The California State University provides generous health, retirement and other benefits.

Position Summary: The position is in the Information Systems department at San Francisco State University.

The department of Information Systems faculty are engaged in on-going research programs in a variety of areas including mobile/wireless systems, green IT, crowdsourcing, cloud computing, knowledge modeling, electronic commerce, IT sourcing, open source adoption, innovative technology diffusion, human-system interaction, social network analysis, and database systems. Faculty research publications have appeared in various journals including ISR, Decision Sciences, EJIS, CAIS, and Operations Research, and faculty have published internationally recognized textbooks and professional books. The University's location in San Francisco provides excellent opportunities for contacts with cutting-edge social media companies and high-tech companies located in nearby Silicon Valley. The department also has close contacts with a network of CIOs in the San Francisco Bay Area and hosts an annual CIO Executive Development program.

The position includes a full-time faculty workload per the Collective Bargaining Agreement between the California State University and the California Faculty Association. The workload primarily includes teaching assigned undergraduate and graduate courses in Information Systems and conducting an active ongoing scholarship program which advances knowledge in the field.

The teaching assignments will be in the areas of introductory information systems, business applications development, system analysis, database management, computer network management, project management and business intelligence.

The scholarship may address a range of topics in the areas of Information Systems within the larger purview of Business Administration.

Additional responsibilities include, but are not limited to, productive participation on departmental, college, and university-wide committees; mentoring and advising graduate and undergraduate students; holding regular office hours; curriculum development and improvement, particularly with regard to student learning outcomes; and remaining current in both subject area and teaching methodologies.

Essential Job Tasks: Prepare course materials such as syllabi, lecture and discussion materials, readings and assignments, assessments, and learning resources; prepare and deliver effective lectures to undergraduate or graduate students on topics such as business application development, cloud computing platforms, web application development, open source systems, mobile business applications,
business intelligence, business process management, e-commerce systems, multimedia application
development, information systems analysis/design, database systems, network management, IT project
management, and information security management; Initiate, moderate, and facilitate classroom
discussions; Evaluate and grade students' class work, assignments, papers, etc. in a timely manner;
Compile, administer, and grade examinations or other learning assessments; Maintain student grades
and other required records or reporting materials; Conduct research in the field of interest and present
findings in peer-reviewed journals, books, or professional conferences; Stay current on developments in
the discipline by reading new literature, talking with colleagues, and participating in professional
conferences; Plan, evaluate and revise curricula, course content, course materials, and methods of
instruction; Hold regularly-scheduled office hours for the purpose of advising and assisting students;
Actively participate on assigned committees in accordance with department or College needs, and SF
State's strategic vision; Actively participate in collegial interactions in fulfilling service assignments and
other duties at the department, college, and university level.

San Francisco State University is a member of the CSU system and serves a diverse student body of
30,000 undergraduate and graduate students. The University seeks to promote appreciation of
scholarship, freedom and, human diversity through excellence in instruction and intellectual
accomplishment. San Francisco State University faculty are expected to be effective teachers and
demonstrate professional achievement and growth through research, scholarship, and/or creative work.
Our goal is to attract a world-class and diverse faculty committed to build a multicultural educational
environment.

San Francisco State University is an Equal Opportunity/Affirmative Action Employer with a strong
commitment to diversity. All qualified applicants will be considered without regard to race, color, sex,
religion, national origin, disability, protected veteran status, or other legally protected category. We
strongly encourage the application of individuals from historically underrepresented groups.
